

EBTA Summer Camp 2016

What EBTA International Task-group (ICT) is organizing a Summer Camp, where some senior SFBT practitioners will share their professional know-how with younger practitioners, who want to promote solution-focused thinking and practices in their work settings and beyond.

Why Some younger practitioners expressed during the Vienna conference 2015 their hope that EBTA would promote ways for the older SF generation EBTA to be mentors for them. A Summer Camp offers a good way to do this in a relaxed atmosphere and place with enough time to reflect and share.

When July 3rd to 7th 2016

Where Jakob-Ramsjö island is 60 km west of Helsinki. Peter Sundman's simple summer residence has 8 beds in 4 rooms. Tents will be provided for part of the group.

Who The mentors are Peter Sundman, Ursula Buehlmann, John Wheeler and Ferdinand Wolf.

For 4-8 SF practitioners who promote solution-focused thinking and practices in their area and want to learn more from the mentors and are willing to contribute something to EBTA in the future.

Doing Informal discussions of topics of interest, sharing SF know-how, working on materials, imagining the future in between cooking, chopping wood, eating, sauna and enjoying the midnight sun.

Costs Personal travel costs to and from the village Inkoo nearby and a share of the food and drinks. There is a daily public bus transport to and from Helsinki.

More Send your application to peter.sundman@taitoba.fi before March 30th with reference to the 'Criteria for support from ITC' (www.ebta.eu).

Please note that no certificate is provided for the Summer camp.

Information is also provided by John Wheeler, Ferdinand Wolf and Ursula Buehlmann.

Welcome!
